

VariQuest Design Center Software Download and Install Instructions

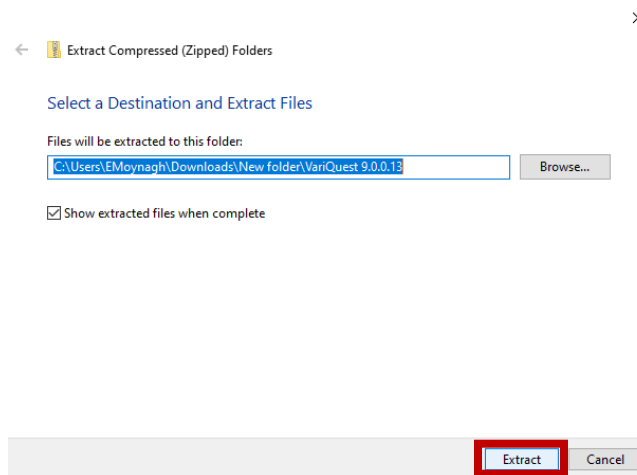

1. You must be logged in to the VariQuest Resource Center.
2. Select **Design Center** then **Downloads** on the left hand side.
3. Click **Download**.
 - a. *Download time will vary based on your internet speeds.*

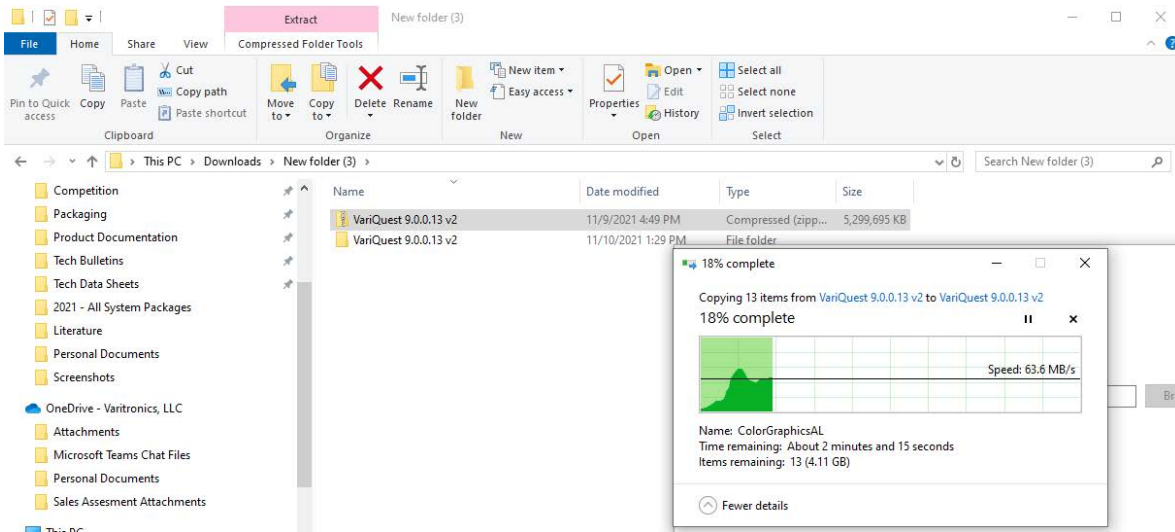

4. Once the Download is complete, locate the file (most likely in your downloads folder). Right click on the file and select **Extract All**.

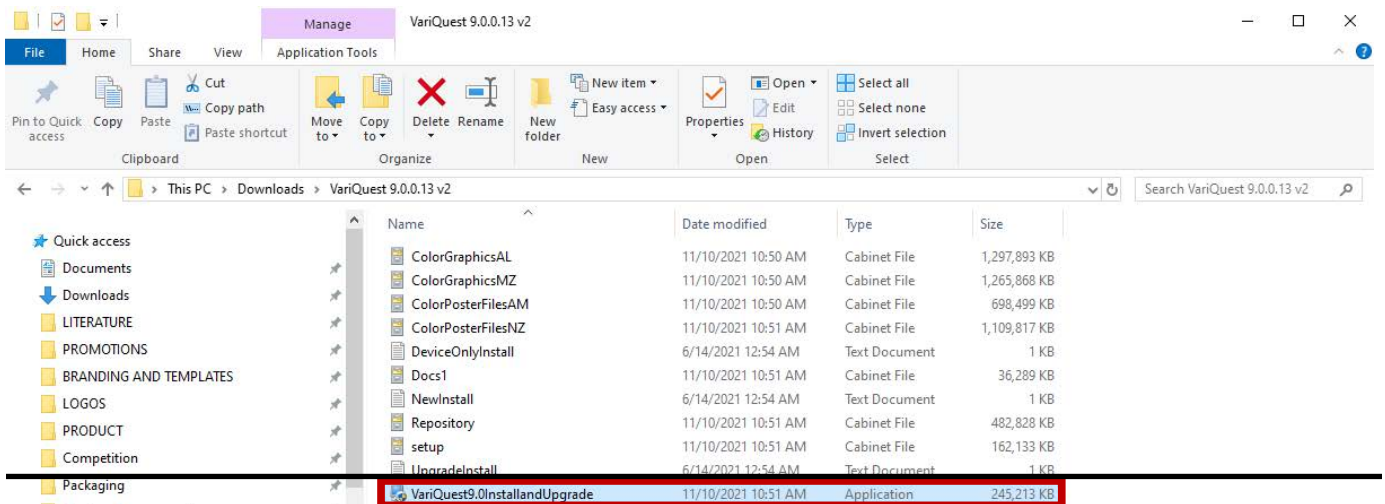

5. A file path option will appear. Simply click **Extract** and the folder will appear in the same location as your download.

6. The files will begin extracting and an unzipped version of the file will appear directly below the zipped version. **Do NOT click on this file right away. Wait for 100% completion and the folder to open automatically.**

7. Once the folder automatically opens, select **VariQuest9.0InstallandUpgrade**.

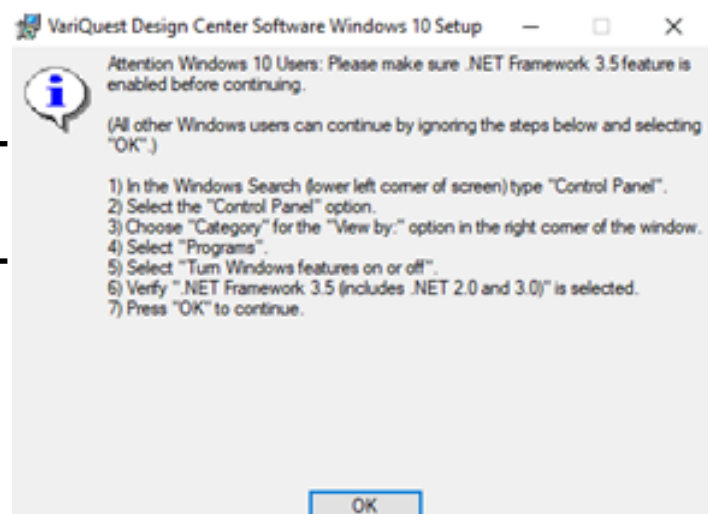

8. When asked "Do you want to allow this app to make changes to your device?" Select **Yes**.

9. If prompted to install a dependency application, click **Install**.

Note: You may have to click **Yes** to the liscence agreement for each dependency application.

Attention: Make sure .NET Framework 3.5 feature is enabled before continuing. To enable, follow the instructions in the dialog box, as shown to the right.

10. On the License Agreement screen, read the agreement (use scroll bar to read the entire text). If you agree, click **Yes**.
 - If you click **No**, you will not be able to continue
 - If you click **Back**, you will return to the previous screen
 - To print out the entire agreement, click **Print**
11. On the *VariQuest Design Center Software Driver Installation Options* screen, click the check box next to each VariQuest® output device you want to connect to your system.
12. The *Choose Destination Location* screen displays the destination folder (recommended) where the files will be installed. To change the location, click **Change**, then select a different folder.
13. Click **Install** to continue. The installation process begins and a progress bar will display on the *Setup Status* screen while installing. The Printer Setup Program will also install each device selected in step 7. Follow all prompts during the device installation process.
14. Click **Finish** (You must click Finish to complete the installation process).

Note: When the installation is complete, you may be prompted to restart your computer.

15. After the software and all device drivers are installed, launch the *Design Center Software* and perform a one-time procedure to complete the initial installation tasks. See the *VariQuest® Design Center Software User's Guide* for instructions on launching the software and completing the initial setup.
